

HOW CAN YOU HELP?

Do your part to protect the planet while staying on our Island of Joy. Individually, we are just one drop. But together, we are a mighty ocean!

* We will refresh your bed linens every other day. If you do not wish for your linens to be changed, please follow the guidelines available in your room.

* Please hang your towels if you wish to reuse them. Towels placed in the bathtub or on the floor will be replaced.

* Please use reef-friendly sun protection. Regular suntan lotions and sunscreens can damage the delicate corals around our island. (Reef-friendly products are available at Maison de JOALI.)

* Ashtrays and wastebaskets are placed everywhere for your convenience.

* Please do not feed fish and other marine

creatures. Consuming human food can be fatal for them as they are unable to digest it.

* Keep a safe, friendly distance from all land and sea creatures, including turtles, birds, stingrays and crabs.

* Be careful not to touch, hold or break off corals. They are very fragile and take many years to grow back.

* Please do not stand or walk on corals while swimming, snorkelling and diving. If you would like to stand, try to find a sandy spot.

* As per Maldivian law, it is illegal to take home any form of shell, sand or coral. Please enjoy these gifts of nature in their natural habitat.
